#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 24-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 24 lines 16-17, claim 25 line 17, and claim 26 line 10, "the wing sections" lack proper antecedent basis as it is not clear if applicant is referring to both the inner and outer wing sections, or any wing sections. For the purposes of examination, the examiner has assumed applicant is referring to any wing sections.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 24-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Kirwan (5,291,954).

Kirwan discloses a forwardly folding toolbar comprising a tongue, a center section, outer wing sections, inner wing sections, with a distance between the outer end of the outer wing section and the inner end of the inner wing section greater than a distance between the inner end of the outer wing section and the inner end of the inner wing section. Concerning the method claims, given the structure of Kirwan, the claimed

Art Unit: 3671

method steps would inherently be performed while the device of Kirwan was assembled and operated. The examiner notes that since part of the tongue of Kirwan is disposed forward of a majority of the inner wings (as set forth in the modified figure below), Kirwan is considered to meet the limitation of the tongue being disposed more forward than the wing sections.

FIG. 3

distance 1 &gt; distance 2

***Allowable Subject Matter***

Claims 1-23 are allowed.

***Response to Arguments***

Applicant's arguments, filed 10/27/06, with respect to claims 1-23 have been fully considered and are persuasive. The previous rejection has therefore been withdrawn.

Art Unit: 3671

Applicant's arguments regarding new claims 24-27 are not persuasive in view of the interpretation of the Kirwan reference set forth above.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Victor Batson whose telephone number is (571) 272-6987. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Will can be reached on (571) 272-6998. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
